Attn: Mr. Mark Griswold

DUE DATE FOR THE DRAFT PHASE II REVRI ENVIRONMENTAL EVALUATION FOR OPERABLE UNIT NO. 2 - WSB-222-93

EG&G Rocky Flats, Inc. (EG&G) formally requested that the Department of Energy/Rocky Flats Office (DOE/RFO) ask for an extension of the Draft Phase II RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Report for Operable Unit (OU) 2 from March 12, 1993 to December 16, 1993. In order for the Draft Phase II RFI/RI Report to be complete, Ebasco Environmental (Ebasco) must submit a Draft Environmental Evaluation (EE) report to EG&G on Monday, June 14, 1993.

The development of the EE report was detailed and budgeted for under Subcontract No. BA 91235 JB. The Draft EE report will be reviewed by DOE and EG&G. All DOE and EG&G comments will be incorporated and the final version of the EE report submitted to EG&G by the close of business on Monday, June 21, 1993.

The Draft EE report shall incorporate all guidance outlined by the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) concerning the EE section of the OU 1 Phase III RFI/RI Report. Also, include the analysis of the surficial soil data collected at the taxa sample locations and the background Reference Area.

Thank you for your prompt attention to this matter. If you have any questions regarding this issue, please contact Annette L. Primrose of my staff at 966-8618 as soon as possible.
